Subject: Fwd: Crystal Geysler Rainfall Gage

Greetings,

In reviewing the HYDROGEOLOGIC EVALUATION FOR PROPOSED CRYSTAL GEYSER WATER BOTTLING FACILITY PROJECT by Richard C. Slade & Associates LLC (RCS, 2016), there is a reference to GAGE NO. 045983. This gage is cited for the Accumulated Departure of Precipitation values on Figure 7A of the report. I would like to see the information that this figure is based on. Is there a website available describing the location of this gage and the data it collected? I'd appreciate your assistance.

Thank you,
Frank Toriello
