Subject: public comment/ draft EIR

Dear Ryan,

This is the letter I submitted to the City of Mt Shasta council members and that I would like to go on the record. Thank you.

I don't live in the vicinity of where CGWC trucks will be transporting their products, but I do frequently walk in that area.

I have been told that trucks will be going in and out of CGWC Drive and north at all hours of the day and night.

My concern is that crossing Mt Shasta Blvd onto Ski Village Dr could be dangerous. And I would feel bad for the residents in that area who would be subjected to the traffic noise 24/7.

At the least it would seem logical to limit the number of hours the trucks run to give people some reprieve from the noise. But honestly, I hope Crystal Geyser will ultimately take their business elsewhere.

Sincerely,
Carolyn Real
Mt Shasta
