Subject: Crystal Geysler Draft EIR

Analytical Environmental Services
1801 7th Street
Sacramento CA 95811
Attn: Ryan Sawyer AICP

Dear Mr. Sawyer,

I am a resident of Mt. Shasta, CA, living in close proximity to the plant. I have numerous concerns about the inadequacy of the draft EIR, in particular that the City of Mt. Shasta sewer system cannot possibly handle the effluent that will be created by the plant. During this recent rainy period, we witnessed the City of Mt. Shasta taking emergency measures to handle sewage that was overflowing from the existing system with its current residential load. I am also concerned about the noise and the air pollution that will be caused by heating and inflating plastic bottles.

Thank you for your time.

Sincerely,

Mark Greenberg
