Richard Linn

Drop-Spindle Spinning Techniques

January 27 2018 at 7 PM

Richard Linn has been a member of the Society For Creative Anachronism for many years. As a re-enactor, he has selected a medieval persona that spins yarn and makes useful items from that yarn. Through the years, he has become an expert in this craft. As Richard will tell the attendees, the drop-spindle technique is the oldest form of spinning known.

Richard will talk about the Creative Anachronists, the history of drop-spindle spinning, and how it is done. He assures us all that with just a few minutes of direction, we can spin yarn using this ancient technique.
