&
The Honorable Board of Supervisors, Siskiyou County

Supervisor Brandon Criss, District 1
Supervisor Ed Valenzuela, District 2
Supervisor Michael Kobseff, Chair, District 3
Supervisor Lisa Nixon, District 4
Supervisor Ray Haupt, District 5

In accordance with the provisions of Section 2279 of the California Food and Agricultural Code, I am pleased to submit the Siskiyou County Annual Crop and Livestock Report for 2016. This report represents estimated acreage, yield, and gross value of Agriculture products in Siskiyou County.

The gross agricultural receipts for 2016 totaled \$318,304,583. This represents a decrease of \$28,424,642 from the 2015 growing season. This decrease is attributable to lower livestock prices, extremely low field crop prices and reductions in nursery production acres and prices. In-season rains damaged much of our hay crop, which reduced returns on an already depressed value commodity. Drought impacts were again significant in some areas, but not uniform across the county. Irrigated and non irrigated pasture as well as range lands experienced the most significant impacts from the drought. Groundwater aquifers allowed producers to achieve good crop production rates, as did adequate surface water sources in most areas of Siskiyou County. Nursery crops were significantly impacted by water issues in the berry growing areas.

The figures contained in this report represent gross values only, and do not reflect a net return to the producer or the cost of production. Also, the figures do not reflect an individual operation since the entire county is the smallest unit measured for any particular commodity.

I sincerely appreciate the efforts and cooperation of all the agricultural interests which provided production information. I especially thank the department staff for compiling and producing this informative publication.

Respectfully submitted,

JAMES E SMITH
Agricultural Commissioner/Sealer of Weights and Measures

Old Case steam threshing engine snapped on the JT ranch near Etna, Calif., in 1947 by Mary A. Tuttle. Looks like an 1869 model, say Case officials when shown picture. Probably oldest threshing engine in the West except one built by Heald at Vallejo in 1858, which is at Mc desto.

Weights & Measures

We work closely with the California Department of Food & Agriculture - Division of Measurement Standards (DMS) to carry out the vast majority of weights & measures enforcement activities. Ensuring fair competition for industry and accurate value comparison for consumers is the primary function of our program. Siskiyou County has 233 locations and 2,703 registered devices.
