

Adolescent Transformations

Outpatient Treatment Program

Adolescent treatment is a voluntary process; however, the SUD treatment system often serves youth who “volunteer” for treatment as a choice to avoid more severe consequences (school expulsion, juvenile detention, felony conviction, placement in group home, or a parental consequence).

Such treatment can be successful if youth are assessed and matched with the appropriate level of service, and the program is successful in motivating the youth to change. The SUD Department is committed to serving the youth and families of Siskiyou County.

- Assessments
- Cognitive Behavior Therapy
- Individualized Goals and Treatment Plans
- New Coping and Life Skills
- Anger Reduction Therapy
- Barriers To Abstinence
- Relapse Prevention

Upon admission, all youth are personally advised of and given a copy of the program rules, client rights, and the complaint and/or grievance procedures. These are culturally, linguistically, and literacy appropriate for the youth and families being served.

CONFIDENTIALITY

Because we receive federal funds, federal laws mandate strict rules of confidentiality of client identities and records. Release of information about clients is limited to the specifications of these laws. [42 CFR]
